HOT & COLD
 Water Dispenser

Made in Korea
 한국에서 만드는데

Hot & Cold Water Purification System	
Point Of Use (POU)	Floor-Stand (hot & cold) Water Dispenser
	Direct Pipe-in and Drain less type.
	Durable textured polycarbonate; clean easily and resist scratches for year of use
Color	Off-White
Dimension/ Weight	W31 x D31 x H104 cm / Wt: 16.8kg nett
Capacity	4.5 litres / hr (cold) (4°C - 10°C)
Dual Temperature	7.5 litres / hr (hot) (85°C - 90°C)
Display	Hot /Cold Water LED
Power Consumption	Cold 105W; Hot 505W
Cooling System	Compressor chilling system with coolant
Refrigerant Gas	R134a Non-Ozone depleting refrigerant gas
Heating system	Heating Band
Temperature Control	Automatic non-adjustable Bimetal
Overload Protector	Bimetal Sensor
Power Supply	220 - 240V / 50Hz / 60Hz / 13amp
External Filter	Hy-Q 4-stage Water Filtration System

4-Stage (Built-In) Water Purification

Sediment - Removes undissolved particles such as dust, rust & suspended solids from feed water

Pre-Carbon - Pre-activated Carbon Filter
 Eliminate excessive chlorine and other organic substances, unpleasant taste & odor from water

Post-Carbon - Post-activated Carbon Filters
 Further elimination of chlorine, organic substance from water and enhance water freshness.

Silver-Carbon - Silver is a powerful bactericide
